Dr. Hiran Roy, PhD. Fairleigh Dickinson University, Vancouver, B.C. Canada

Important Dates
Chapter Abstract Submission Deadline: 30th June 2020
Chapter Abstract Acceptance Notification: 15th July 2020
Proposed Full Chapter Submission Deadline: 30th December 2020
Review of Chapters: 1st January 2021 to 30th May 2021
Submission of Revised Chapter Deadline: 1st June 2021
Proposed Book Hand over: July 2021

Overview
Tourism Destination Management Post COVID-19 Pandemic: Global Issues and Destination Management Solutions is a book that seeks to examine emerging trends, novel solutions and adaptive strategies for destinations as they address pandemic disruptions. Global tourism has experienced one of the greatest disruptions in the history of the industry. The UNWTO predicts an annual decline of between 60% and 80% when compared with 2019 figures, (UNWTO, 2020). Traditionally, tourism destinations management approaches have been centered on systems approach to visitor experiences and attractions, (Pancarelli, 2012); stakeholders collaborations within the destination, (Ammirato, Felicetti and Gala, 2014) and presumably, most Destination Management Organizations (DMOs) have not adequately prepared for the management of destinations during and after pandemic outbreaks. The proposed book seeks to document and provide an examination of thematic areas to be addressed in the management of
the global tourism industry post COVID-19 pandemic. The proposed book therefore covers various topics related to destination management. The book also aims at presenting cases and competencies in order to advance theoretical and empirical knowledge in the management of destinations post pandemics. The key objectives of this book are to: Advance the global body of knowledge in destination management post - pandemics; Review of various empirical studies and industry cases in Europe, Asia, America, Africa, Australasia, Small Islands Developing States (SIDs) and the rest of the world following the COVID-19 pandemic; and connecting with industry best practices, contemporary issues and approaches in the management of tourism destinations Post COVID-19 Pandemic.

With this notion as foundation, the guest editors encourage contributors to forward both conceptual and empirical papers that reflect innovative and current approaches related to the management of tourism destinations post COVID-19. To enhance readership, it is desirable to include case studies and success stories where necessary. If you are interested writing a chapter (5,000 – 6,000 words) on any of the listed topics below, email your abstract to vanessa.gowreesunkar@uat.edu.ng and maingi.shem@ku.ac.ke by 30th of June 2020. The submissions may explore the following topics and are not limited to them:

**Destination Management Post COVID-19 Pandemic**
- Impacts and implications of COVID-19 in the global tourism industry
- Roles of Destination Management Organizations Post COVID-19
