

Announcement: ELA Doctorate Workshop 2025, June 18th - 21st 2025 Naples (Italy)

The twenty-ninth ELA Doctorate Workshop will take place in Naples (Italy) from June 18th - 21st 2025 and it will be organised by the Institute of Mediterranean Studies (ISMed) in collaboration with the Department Human Science of the Italian National Research Council (CNR).

I would like to invite you to propose one doctoral student from your university, who could contribute to this workshop with an interesting doctoral research project within logistics. Doctoral research projects from all areas of logistics, in the broadest sense, are welcome.

The nominated student is requested to prepare a no more than three-page proposal (in Word format) indicating: the title of the doctoral research project, name, affiliation, contact details, email address, name of the main supervisor, the stage of the research project (beginning, middle, end) and a brief description of the project (short background, research objectives, methodology, expected results, list of references, etc.) and submit it by **March 28th, 2025**.

The application should also include a short letter of recommendation (in pdf. Format) from the main PhD supervisor or Head of the Department (this letter can follow after the proposal, if necessary). More information about ELA and the previous doctorate workshops can be found at the homepage of TU Darmstadt (Supply Chain and Network Management <http://www.scnm.tu-darmstadt.de> - on the right side click on ELA Logistics Association). It is also possible to follow us on Facebook at: <https://www.facebook.com/ELAdoctorateworkshop/>

The ELA Research Committee will evaluate the submitted proposal and invite about 20 doctoral students to participate in the workshop. All the students have to prepare a formal presentation of their project. The chairman and three other experienced logistics professors from Europe will participate as advisors and moderators during the workshop. The Kuehne Foundation is the sponsor of the workshop and it will cover accommodation and meals expenses for all the invited doctoral students. Travel costs have to be paid by the participants themselves. The ELA doctorate workshop is highly recommended. It is an excellent opportunity for doctoral students from all over Europe to meet and establish a valuable network. Students can get 3 ECTS.

Please send the proposal as an attached document to the chairman of the workshop:

Dr Pietro EVANGELISTA
